NARI®
NATIONAL ASSOCIATION OF
THE REMODELING INDUSTRY
Remodeling Done Right.™
MADISON

Who is NARI?

The National Association of the Remodeling Industry is dedicated to advancing and promoting the remodeling industry's professionalism, products and vital public purpose.

As the voice of the remodeling industry, NARI has an inclusive, encompassing purpose:

To Establish and maintain a firm commitment to developing and sustaining programs that expand and unite the remodeling industry;

To Ensure the industry's growth and security;

To Encourage ethical conduct, sound business practices and professionalism in the remodeling industry;

To Present NARI as the recognized authority in the remodeling industry.

Members of NARI are full service contractors, design-build firms, manufacturers, suppliers, distributors, subcontractors, lenders and other related professionals who work in the remodeling field.

NARI is committed to education for both trade professionals and remodeling-ready homeowners. NARI does this by reaching out to a diverse audience in a variety of formats including education, training, publications, events and programs.

The National Association of the Remodeling Industry brings together people who work in and with the remodeling industry, belonging and growing by learning from one another. As professionals we create an exceptional experience for the remodeling consumer.

The National Association of the Remodeling Industry is dedicated to being the best resource for knowledge and training in the remodeling industry.

The President's Message

Madison Area Consumers:

It's my honor and pleasure to welcome you all to the 2017 NARI Directory! Your search for a remodeling professional starts and ends right here.

This directory serves as your guide to finding the right professional for all of your remodeling needs. Our members consist of a community of industry professionals who are passionate about their craft and have made a significant investment in their education to provide the highest level of quality and service to their clients.

NARI of Madison is not only respected locally, but continues to drive a strong presence nationally within the industry. Our members have consistently won national awards for remodeling projects done right here in the Madison area! The organization is driven by a coalition of an executive staff and member leaders who are always asking each other, "How will this benefit our members and their clients – the homeowners?"

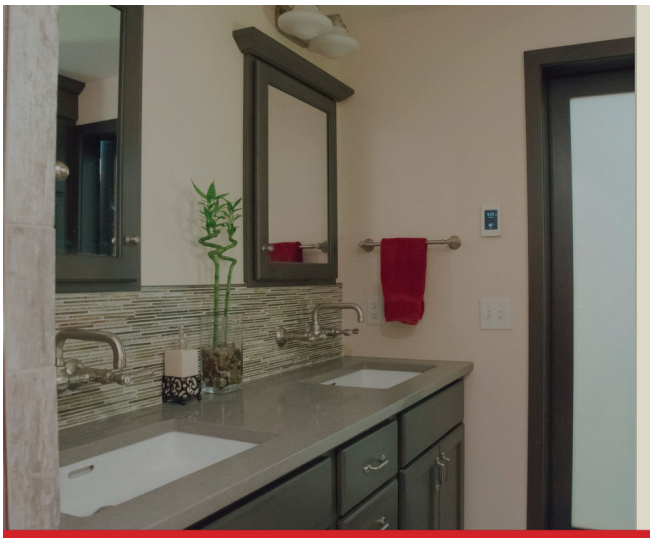

Opportunities are abundant throughout the year to meet and engage our members. 2017 kicks off with a bang at the annual NARI Expo on January 20-22 at the Madison Marriott West Convention Center. Please go to www.nariexpo.org for more information about this spectacular event. Next, the NARI Remodeled Homes Tour on May 21 will give you a chance to see in person the power of how a remodeling project can transform your home. You can find quality contractors, products and suppliers any time at www.NARIMadison.org.

I couldn't be more proud to have an opportunity to lead this organization for 2017. NARI of Madison represents what we all strive for in our businesses and lives – respect amongst members, a drive to continuously improve our organization, and a willingness to help each other whenever that help is needed.

Matt Flynn
NARI of Madison, President 2017

"NARI - Remodeling Done Right"

W.E. Davies + Sons Remodeling, Inc.

We are craftsmen for discerning homeowners who value quality and intricacy over speed.

Whether we're remodeling a lake house or performing simple repairs, we don't rush. We've never seen the benefit of that. Our award-winning work proves that we value quality over quantity.

That's why we have so few carpenters and so much business. We've built a strong name for ourselves on the basis of craftsmanship and integrity. **Contact us today to discover the W.E. Davies difference.**

NARI of Madison Foundation Inc

NARI of MADISON FOUNDATION INC. a 501c3 corporation, was established in 2012 by a group of dedicated NARI Professionals who are committed to the growth and development of the next generation of skilled construction trade professionals. Although a separate entity from NARI of Madison, we share a common mission to elevate the entire remodeling industry through educational endeavors and professional development.

OUR MISSION
To raise funds and provide opportunities for programs and scholarships to support education in the remodeling industry.

With the generous support of NARI of Madison and community members, we have helped fund scholarships for students of the Construction and Remodeling and Interior Design Programs at Madison College. We look forward to continuing to serve our mission and providing additional opportunities in the future.

Fundraising is ongoing and we are always looking for fundraising ideas or potential educational programs to help further our mission. If you have an idea for us, please contact any of the directors or the NARI office at nari@narimadison.org or 608-222-0670.

MCR/CR/CRS/CLC/CRC/GPC/UDCP

The certification of a remodeling contractor under the certification program of the National Assocation of the Remodeling Industry (NARI) is the assocation's recognition that the contractor has met certain criteria for experience, committment to ethical conduct and professionalism.

Master Certified Remodeler (MCR): a CR of 10+ years who holds another NARI certification and has demonstrated leadership within NARI or within the local community.

Certified Remodeler (CR): a professional remodeler who provides a full range of remodeling services. Candidates must prove they possess skill and knowledge in a broad range of business management and technical skill areas.

Certified Remodeler Specialist (CRS): a professional remodeler who specializes in a specific type of work, such as concrete and masonry, electrical, insulation, mechanical systems, plumbing systems and roofing and siding.

Certified Lead Carpenter (CLC): a hands-on field pro who oversees the technical aspect of the project, including personnel management and material flow while working on the project.

Certified Remodeler Project Manager (CRPM): a pro who oversees every administrative aspect of the project: customer satisfaction, scheduling subcontractors, record-keeping, risk management, and much more. A CRPM may work full time on one project or oversee several at one time, depending on the scope.

Green Certified Professional (GCP): a pro who considers energy efficiency, sustainability and maximizing nature's resources and energy in an efficient and responsible manner, both in the coduct of their business and in design and construction of a client's remodeling project.

Universal Design Certified Professional (UDCP): a pro who handles renovations that are appealing not only for "aging in place," but for anybody who wishes to move about his or her home freely, without barrier and without giving their home that "institutional" look. Families who have members with special needs also benefit from a UDCP.

Better Insulation Means More Comfort

The type of insulation in your home is the difference between comfort and cold. Retain your heating investment and stay warm this winter. Make sure your home is prepared.

Remodeling Checklist

Write It Down

Walk through your home and write down all the dreams you have for it.

Hit the Web

Search for remodeling ideas on the NARI Madison CotY Award Winners shown online, in NARI Tour homes, and on Houzz and Pinterest. Many online sites let you create boards and project pages to collect your ideas. Capture details about countertops, tile, cabinets, appliances, and favorite paint colors.

Plan It Out

Figure out your financial resources so you know how much you can spend on a remodel project. Dont forget to budget for interior designfurniture, lighting, window treatments, etc. to finish the look.

Call the Best

Look to NARI Madison as your best resource for professional, ethical and experienced remodeling companies, subcontractors and suppliers.

Do Your Homework

Call the contractors references, ask to go see at least one of their remodeling projects.

Give in to Your Gut

The remodeling contractor or subcontractor will live with you and your family for days or weeks or months. Your gut feel tells you if you are comfortable with this person!

Define the Details

Your remodeling proposal and/or contract should be comprehensive and include product descriptions, start and approximate completion dates, payment schedule, change order procedures, warranties, and alternative dispute resolution clauses.

Stay on Top of Progress

Inspect each phase before making payment. Make sure everything is done to your satisfaction before you make the final payment.

Keep Your Perspective

Remodeling can be disruptive to your normal household environment. Take a deep breath, keep your focus and enjoy collaborating with the remodeling contractor or subcontractor for the end result.

Celebrate the Dream

Invite your family, friends, neighbors to see your new remodeling project, and start dreaming about the next one!

Important Questions to Ask when Interviewing Remodeling Contractors

NARI professionals are eager to answer your questions and provide you with the information you need to make a wise decision. Here are some questions NARI members recommend you ask before signing any remodeling contract:

How long have you been in business?
Who will be assigned as project supervisor for the job?
Who will be working on the project? Are they employees or subcontractors?
Does your company, and do any sub-contractors you may hire, carry workers compensation and liability insurance? (Always verify this information by calling the agency. A copy of an insurance certificate does not let you know if the policy is still current. Even if the certificate has an expiration date, either party may have canceled the insurance.) If licensing is required in your state also ask if the contractor is licensed and call to verify compliance with the law. Not all states offer or require licensing. Check with your local or state government agencies.
What is your approach to a project such as this?
How many projects like mine have you completed in the past year?
May I have a list of references from those projects?
May I have a list of business referrals or suppliers?
What percentage of your business is repeat or referral business?
Are you a member of a national trade association?
Have you or your employees been certified in remodeling or had any special training or education, such as earning a Certified Remodeler (CR), Certified Remodeler Specialist (CRS), Certified Kitchen & Bath Remodeler (CKBR), Certified Lead Carpenter (CLC), Green Certified Professional (GCP), Certified Remodeler Project Manager (CRPM) or Universal Design Certified Professional (UDCP) designation?
Do you provide design work? If so, is there an additional cost involved?
What kind of timeline do you anticipate for my project?

Sometimes its not the answers you get that are significant, but what you dont get. Pay attention to your instincts and to what information is missing. Unlike your accountant or stockbroker, your remodeling contractor will be a part of your daily life. Your contractor will know how you look early in the morning and how well behaved your dog is. It makes sense that you should take some time to select this person carefully.

Remodeling can be a fun experience. You get to create your dream living space and learn a little about design and building along the way. All you need to do is ask questions. Questions that, according to NARI members, remodelers dont feel they are hearing enough.

DON'T JUST REMODEL,

TRANSFORM.

Our windows and doors have the flexibility you need to meet the high expectations that come with a remodel. Add the expertise and support of our independent dealers, from specification to installation and beyond, and you can be confident that we will be there for you no matter what challenges you may encounter during your remodel.

DIY or Hire a Pro?

Home Improvement Projects: Do-It-Yourself or Hire a Professional?
Take this quiz to find out!
Should you save money by doing the job yourself? Do-it-yourself (DIY) jobs are a popular trend in the home improvement industry; however, before you grab a hammer and start swinging, you should know that the wrong decision could bring forth a few potential problems. Before you decide to do-it-yourself, the National Association of the Remodeling Industry (NARI) recommends taking this DIY quiz:

Answer yes or no:

- Do you enjoy physical work?
- Are you persistent and patient?
- Do you have reliable work habits—meaning that once the project is started, will it get finished?
- Do you have all the tools needed and, more importantly, the skills required to do the job?
- What quality level do you need for this project? Are your skills at that level?
- Do you have the time that will be required to complete the project? (Always double or triple the time estimated for a DIY project, unless you are highly skilled and familiar with that particular project.)
- Will it matter if the project remains unfinished for a period of time?
- Are you prepared to handle the kind of stress this project will create in your family relationships?
- Do you know all of the steps involved in the project?
- Have you received the installation instructions from the manufacturer to determine whether this is a project you still want to undertake? (Most manufacturers will send you installation instructions before purchase to determine whether the product will meet your needs.)
- Is this a job you can do completely by yourself or will you need assistance? If you do need assistance, what skill level is involved for your assistant? If you need a professional subcontractor, do you have access to a skilled labor pool?
- Are you familiar with your local building codes and permit requirements? (Some jurisdictions require that the work be completed by a licensed and bonded professional in order to meet code.) It's best to check these requirements before beginning work on the project.
- What will you do if the project goes awry? (Most contractors are wary about taking on a botched DIY job.)
- Is it safe for you to do this project? (If you are not familiar with roofing or do not have fall protection restraints, you may not want to venture into a roofing job. Similarly, if you know nothing about electricity—leave it to the professional. Some jobs can be fatal if not performed correctly. Your health and safety should be the primary concern. Never enter into a DIY project that would jeopardize either.)
- Will you be able to obtain the materials you need? Who will be your source of supply? Will they deliver?
- Are you attempting to do-it-yourself for financial reasons? If so, have you looked at all of your costs, including the cost of materials, your time, and the tools you need to purchase? If you are new to the DIY game, you may also want to look at the cost to correct any mistakes you may make—i.e., the damage factor. Will it still be a cost-saving venture?
- If you are trying DIY for the satisfaction of a job well done—can you ensure that the job will be "well " done"? If it doesn't come out right, how will you feel? Will you be able to afford to redo any unsatisfactory work?

If you answered yes to 8 or more of these questions, you might attempt a DIY project. But before you run for the nearest hardware store, revisit those questions you marked "No," and carefully consider the potential problems you will face in those areas if you proceed with the project.
Hiring a professional might be your best choice. NARI recommends that you take your time in selecting a home improvement partner and reminds consumers that such a project can be one of the most important investments that a homeowner can make.
Learn what you need to know about lead paint safety if your house was built prior to 1978 at NARI's Lead safety Resource page.

Visit www.NARIMadison.org to find NARI Professionals when you need them!
